***Allowable Subject Matter***

1. Claims 1-44 are allowed.

2. The following is an examiner's statement of reasons for allowance: In response to remarks of Applicant filed on 02/06/2006, Applicant's argument is persuasive. The cited references fail to teach or suggest, in the claimed combination, a card guide for use in an electronic equipment enclosure having first and second support structures defining a pair of channels configured to receive at least a portion of a card with the channels terminating short of the first end of the card guide so that a slot is defined that is interposed between the first and second support structures and a card received in the enclosure by way of the receptacle is positioned in the slot such that the card straddles the card guide, as claimed in claim 21. All claims have been considered and upon conclusion of a comprehensive search of the prior art, the office indicates that the claims are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
